FOR IMMEDIATE RELEASE

HICKOK CENTER FOR BRAIN INJURY OPENS NEW SITE IN BROCKPORT, NY

ROCHESTER, NY, September 19, 2012 – **The Hickok Center for Brain Injury** is excited to announce the opening of our new satellite site at **36 Erie Street, in the village of Brockport**. The new site is an extension of our main site in Rochester and will offer service coordination, a structured day program, independent living skills training, community integration counseling, and supported employment services to adults who have sustained a brain injury.

An Open House will take place tomorrow, September 20 from 12 noon to 6:00pm. All community members are invited to attend. There will be snacks, door prizes, tours, and more information about the new site. **In addition, a ribbon cutting ceremony will take place at 1:00pm with special guests in attendance.**

People suffering from brain injuries have to regain lost skills that the rest of us take for granted such as writing or typing, conversing with friends, folding laundry, and shopping for groceries. The Hickok Center for Brain Injury, with centers in Rochester, Newark and now, Brockport, is a place where people with brain injuries can go to redevelop the skills they have lost, within the safety and support of people with similar experiences and professionals who understand their struggle. Members set their own goals, design their own programs and utilize our organization's staff in ways that are consistent with their own priorities toward independence and self-sufficiency. For more information, we invite you to visit our website at www.hickokcenter.org or to contact us.

###

Mission Statement

To provide a safe, supportive environment that encourages brain injury survivors to design and direct their own life's journey.
